O. P. No. 21 of 2024

AND

I. A. No. 26 of 2024

TGSPDCL

AND

M/s. Hyderabad MSW Energy Solutions Private Limited

Mr. Matrugupta Mishra, learned counsel representing the generator M/s. Hyderabad MSW Energy Solutions Private Limited and Mr. Mohammad Bande Ali, Law Attaché representing the licensee are present. Considering the submissions of both the sides, I. A. 26 of 2024 is allowed only in respect of making additional submissions. Since, Mr. Mohammad Bande Ali representing licensee has raised objections in respect of claim of generator with regard to the capacity of the equipment of the generator in producing 24 MW electricity, the TGSPDCL is directed to submit the certified data i.e., Joint Meter Readings in respect of electricity being injected by the generator from 10.10.2022 onwards to till date.

Further, since the learned counsel appearing for the generator has placed reports suggesting that the equipment of the generator is capable of injecting the power up to 24 MW and the same is being disputed by Law Attaché stating that unless suitable equipment is added to the existing one, the existing equipment may not be in a position to generate and inject 24 MW, this Commission is of the opinion to form a committee of experts from various agencies to inspect the equipment of the generator to report as to whether the existing equipment of the generators is capable of generating and injecting 24 MW power, as mentioned in the amended Power Purchase Agreement. For this, the DISCOMS and the generator are directed to suggest the names of three agencies each within two days by way of email or otherwise and on receiving such suggestions, the Commission will form a committee of experts for inspecting the project of the generator and submit the report in the specific time frame.

List this matter on 10.02.2025 for further consideration. In the meanwhile, in case if the report is filed by the expert committee, the office is directed to circulate the reports to both the parties in advance.
