

Record of Proceedings dated 16.01.2025

O. P. No 32 of 2014

M/s. Biomass Energy Developers Association

AND

TGPCC and others

Heard Mr. D. Raghava Rao and Mr. M. Ravikanth on behalf of petitioner's association. Hon'ble APTEL has directed this Commission to determine the fuel cost based on 1. Actual market purchase price 2. Composition of fuel mix. and 3. Relating parameters which would also include moisture content of each of the fuel involved in the composition of the fuel mix. However, during the course of submissions the representatives of the petitioner's association has submitted that if actual market purchase price is considered, the composition of fuel mix and moisture content in the fuel both also deemed to have been considered as the market price depends on the composition of the fuel mix and moisture content in the fuel, therefore if the actual market price is considered it will meet the directions of APTEL and requirement of the petitioner's association, It is also submitted that the audited balanced sheets depicting the actual market purchase price of all the units is available in record. Considering the submissions of the petitioner and also Mr. Mohammad Bande Ali, Law Attaché for the respondent, the petitioner's association is directed to submit an affidavit to the affect that if actual market purchase price basing on the data allegedly available in the Commission is considered that will take care of issue of composition of fuel mix and moisture content. For filing of the affidavit as directed and also directing the petitioner's association to kindly submit all the data to respondent.

List the matter on 21.01.2025.
