To,

The Secretary,

TGERC

Respected Sir,

Sub:- Request for opportunity to represent in public hearing on 06th March 2026 at Hanumakonda-Reg.

At the outset we would like to thank the Commission for its various efforts and orders favouring the consumers thereby recognising us as an important stakeholder.

We would like to request you to grant us an opportunity for representing our industry issues at the public hearing to be conducted in Hanumakonda on 6 March 2026.

The following are the key issues to be highlighted-

1) Prevailing new PF Regulation –

- a) Industry needs time for complying with proper APFC system. Technically suited models are not available for all.
- b) No realistic support from discom in identifying panels or issues coming therefrom.
- c) MSMEs are an important part of the Indian employment ecosystem and as such orders must be analysed from MSME perspective before being implemented.
- d) Sudden spike in bills due to PF changes- Industry is waiting for relief to refund the excess amounts already billed and paid by millers.

2) Long term Solution- After many trial and errors, we have understood that various factors affect the present PF calculation, some of which are even beyond the entrepreneur's control. Therefore, PF 1.00 which is ideal but not practical may please be allowed as above 0.95 in present conditions. It may be reviewed by next year whereupon more realistic data will be available on hand.

Thanking you,

Yours truly,

President
