Email: secy-tgerc@telangana.gov.in

Subject: Objection to the petition (I.A. No. 4 in O.P. No. 24 of 2020) filed by TGSPDCL seeking reduction of the pre-fixed levelised tariff from Rs. 3.13/kWh to Rs. 2.98/kWh under Component-A of the PM-KUSUM Scheme – filed pursuant to the Public Notice dated 23.06.2026.

Particulars of the Objector (Solar Power Generator):

Name of the SPG / Farmer: Panitham Bhanushetkar

Application No.: TGPMKUSUM-A/24-25/1721

PPA No. and Date: 200 3-7-2025

Capacity (MW): 0.5MW

Village / Mandal / District: Kadavondi/Devarupula/JANGAON

Mobile No.: 9553219660

Respected Sir / Madam,

I have invested my savings and raised institutional finance to establish a solar plant under Component-A of the PM-KUSUM Scheme on the strength of the tariff of Rs. 3.13/kWh determined in O.P. No. 24 of 2020. The proposed reduction to Rs. 2.98/kWh threatens that investment. I therefore submit the following objection:

Ground 1: GST Reduction Did Not Reduce the Entire Project Cost

The GST reduction applies only to certain specified renewable energy goods. Substantial components of project cost are wholly unaffected by it – land development, civil works, transmission line, bay extension, transformer, interest during construction, insurance, bank processing charges, labour, security, transportation and O&M arrangements. The assumption that the overall project cost has uniformly fallen by Rs. 20-25 lakh per MW is unproven and cannot be accepted without project-specific evidence.

Ground 2: Project-wise Verification Is Mandatory

Each generator procured equipment and materials at different points in time – some before the GST notification and some after it. The actual GST benefit, if any, therefore differs from project to project. Applying a single, uniform tariff cut across all projects without project-wise verification is arbitrary and violates the principle of fairness.

I humbly pray that this Hon'ble Commission may be pleased to dismiss the petition, preserve the contractually agreed tariff of Rs. 3.13/kWh, and pass any further orders necessary to protect the interests of farmers under PM-KUSUM Component-A.

Yours faithfully,

P. Bhanu Shetkar

Subject: Objection to the petition (I.A. No. 4 in O.P. No. 24 of 2020) filed by TGSPDCL seeking reduction of the pre-fixed levelised tariff from Rs. 3.13/kWh to Rs. 2.98/kWh under Component-A of the PM-KUSUM Scheme – filed pursuant to the Public Notice dated 23.06.2026.

Particulars of the Objector (Solar Power Generator):

Name of the SPG / Farmer: Thotakura Praveen Yadav

Application No.: _____

PPA No. and Date: 139

Capacity (MW): 2 MW

Village / Mandal / District: _____

Mobile No.: 924 7898434

Respected Sir / Madam,

I have invested my savings and raised institutional finance to establish a solar plant under Component-A of the PM-KUSUM Scheme on the strength of the tariff of Rs. 3.13/kWh determined in O.P. No. 24 of 2020. The proposed reduction to Rs. 2.98/kWh threatens that investment. I therefore submit the following objection:

Ground 1: GST Reduction Did Not Reduce the Entire Project Cost

The GST reduction applies only to certain specified renewable energy goods. Substantial components of project cost are wholly unaffected by it – land development, civil works, transmission line, bay extension, transformer, interest during construction, insurance, bank processing charges, labour, security, transportation and O&M arrangements. The assumption that the overall project cost has uniformly fallen by Rs. 20-25 lakh per MW is unproven and cannot be accepted without project-specific evidence.

Ground 2: Project-wise Verification Is Mandatory

Each generator procured equipment and materials at different points in time – some before the GST notification and some after it. The actual GST benefit, if any, therefore differs from project to project. Applying a single, uniform tariff cut across all projects without project-wise verification is arbitrary and violates the principle of fairness.

I humbly pray that this Hon'ble Commission may be pleased to dismiss the petition, preserve the contractually agreed tariff of Rs. 3.13/kWh, and pass any further orders necessary to protect the interests of farmers under PM-KUSUM Component-A.

Yours faithfully,

T. Praveen Yadav

Particulars of the Objector (Solar Power Generator):

Name of the SPG / Farmer: T. Kavitha

Application No.: 92

PPA No. and Date: 09/06/2025

Capacity (MW): 2 MW

Village / Mandal / District: Mandalapuram, Nakrekal mandal, Nalgonda (DT)

Mobile No.: 9052435837 Chandupatla (Sub Station)

Respected Sir / Madam,

I am a Solar Power Generator (SPG) under Component-A of the PM-KUSUM Scheme, having executed a Power Purchase Agreement with the distribution licensee at the pre-fixed levelised tariff of Rs. 3.13/kWh determined by this Hon'ble Commission vide Order dated 02.01.2021 in O.P. No. 24 of 2020. Having seen the captioned Public Notice, I submit my objection to the proposed reduction of the tariff to Rs. 2.98/kWh on the following ground(s):

Ground 1: PM-KUSUM Scheme Objectives

The PM-KUSUM Scheme exists to enhance farmers' income, promote decentralized renewable energy, and improve energy security. A decision that substantially reduces farmers' income directly defeats these objectives and ought not to be made except on clear statutory authority and cogent evidence.

Ground 2: GST Reduction Creates No New Cost Advantage – the Benchmark Was Already Fixed Under a 5% GST Regime

The very premise of the petition is factually incorrect. This Hon'ble Commission fixed the benchmark capital cost of Rs. 3.60 Crore/MW by adopting the MNRE Office Memorandum dated 21.07.2020 for FY 2020-21 (Paras 12 and 68 of the Order in O.P. No. 24 of 2020). During FY 2020-21 the GST on solar equipment was already 5%. The tariff of Rs. 3.13/kWh was therefore never built on a 12% GST structure. GST was 5% up to 30.09.2021, 12% from 01.10.2021, and has now been reduced again to 5% – i.e. it has merely reverted to the very level that prevailed when the benchmark was adopted. The present 'change' therefore yields no new cost advantage and gives no factual or legal basis for any reduction. Given the inflation in equipment, steel, labour, civil works, financing and O&M costs since FY 2020-21, an honest review would justify continuation of the existing tariff or an upward revision – certainly not a cut.

It is respectfully prayed that this Hon'ble Commission may be pleased to reject the petition of TGSPDCL in I.A. No. 4 in O.P. No. 24 of 2020 and to continue the existing pre-fixed levelised tariff of Rs. 3.13/kWh for PM-KUSUM Component-A projects, and to pass such further orders as may be just and proper.

Yours faithfully,

T. Kavitha
