

To
The Secretary,
Telangana Electricity Regulatory Commission (TGERC), Hyderabad.
Subject: Objection to the proposed reduction of tariff under PM KUSUM Component-A.
Respected Sir/Madam,

I,Thota Rajendar,PPA No.98, from Wardhannapet Village,
Warangal District, respectfully submit my objection to the proposed reduction of
the pre-fixed levelized tariff from Rs.3.13/kWh to Rs.2.98/kWh.

I request the Commission to continue the existing tariff of Rs.3.13/kWh. If possible, the
tariff may kindly be enhanced considering the steep increase in the prices of solar
equipment, construction materials, labour, maintenance, transportation and other
project-related expenses. Farmers are already under heavy financial burden and many of us have taken loans to establish these projects. A
reduction in tariff will further
increase our financial hardship and affect the viability of the projects.
Therefore, I humbly request the Hon'ble Commission to reject the proposed tariff
reduction and retain the existing tariff, or consider an appropriate increase in the
interest of farmers and renewable energy development.

Thanking you.
Yours faithfully,
Thota Rajendar
