Sub: Submission of Comments/Objections on the Petitions filed by TGDISCOM

Dear Sir,

We are very much thankful to your good office for supporting Telangana industry from time and again. TSERC constituted on 3rd November'2014, with prime focus of protecting the interests of the consumers. In light of this, we trust that the Commission will carefully consider our concerns in line with this mandate.

We wish to draw your attention to the severe crisis already faced by the steel industry in Telangana. Any further increase in charges, including ARR, Wheeling Charges, and Cross Subsidy surcharge, additional surcharges, will place heavy burden on our industry, which is currently struggling to remain viable in an increasingly competitive market.

We are deeply concerned about the proposed increases in ARR, Wheeling, and Cross Subsidy surcharge and additional surcharge, which will place an unsustainable burden on the steel industry. This increase will severely affect our industry's viability, which is already facing economic pressures.

We also request that the difference in charges for 11KV, 32KV, and 132KV be maintained at earlier levels to ensure fairness and competitiveness across various industries. 132KV has significantly lower transmission losses compared to 11KV and 33KV, and industries have invested heavily in the infrastructure for 132KV. It is crucial that these differences be recognized in the tariff structure.

We urge the Hon'ble Commission to reconsider the proposed charges to ensure a conducive environment for the industry.

We request an opportunity to present these concerns in detail during the upcoming public hearings.

Thank you for your attention to this urgent matter.

Yours faithfully,
For Mahalakshmi Profiles Pvt. Ltd
