Sub: Comments for Draft Approval of Aggregate Revenue Requirement (ARR), Filing for Proposed Tariff (FPT) and Cross Subsidy Surcharge (CSS) for FY 2023-24

Dear Sir,

With the subject reference, we are thankful for TSSPDCL for providing green power under green tariff mechanism. This will help in moving towards 100% renewable energy and meet our carbon neutrality goal.

We wish to suggest the following changes in the policy.

- As a consumer of green power through green tariff mechanism, we request TSSPDCL to issue us Green Energy Certificate on monthly basis clearly mentioning the green attributes belonging to the consumer. This will set the ownership of green attributes with the consumer. This will set the ownership of green attributes with consumer and ensure clear accounting and compliance with auditing requirements of carbon neutrality.
- TSSPDCL to upfront declare the green attributes of power consumed under green tariff mechanism belonging to the consumer during the start of supply of power by confirming the source & quantum of purchase of green power by TSSPDCL and then may share the certificate as per its accounting protocol.

Please find attached copy of Odisha electricity board issued green energy certificate for your kind perusal.

Thanking You,

Yours Sincerely  
For Infosys Limited
